

Library Shelving & Display Systems

CANTILEVER
SHELVING SYSTEMS

Storage Solved®

 Spacesaver®

Welded-Frame Shelving Uprights Fully-welded steel frame with **14-gauge uprights** provides superior strength. No cross-bracing is required. Frame will accept most types of existing cantilever shelves. Optional mid tubular spreaders are available for seismic compliance.

Triple-Bend Shelf Construction Far stronger than conventional double-bend fabrication. Eliminates sharp exposed edges for user safety.

Interlocking Shelf End Brackets Smooth, clean design with rounded edges to help prevent book "knifing." Interlocking tabs lock shelves securely to uprights.

Location Indicators For easy shelf alignment, indicator holes are spaced every 6" (150 mm). Shelf height is fully adjustable in 1" (25 mm) increments.

Gusset To help meet seismic requirements, a metal gusset is welded to the base support and bolted to the upright to provide added strength and rigidity in both mobile and stationary shelving configurations.

Base Shelf Fixed base shelf with integral 3" (75 mm) kickplate for stationary applications. For mobile systems, the base shelf can be replaced with a 1" (25 mm) adjustable shelf to provide 2" (50 mm) more storage height.

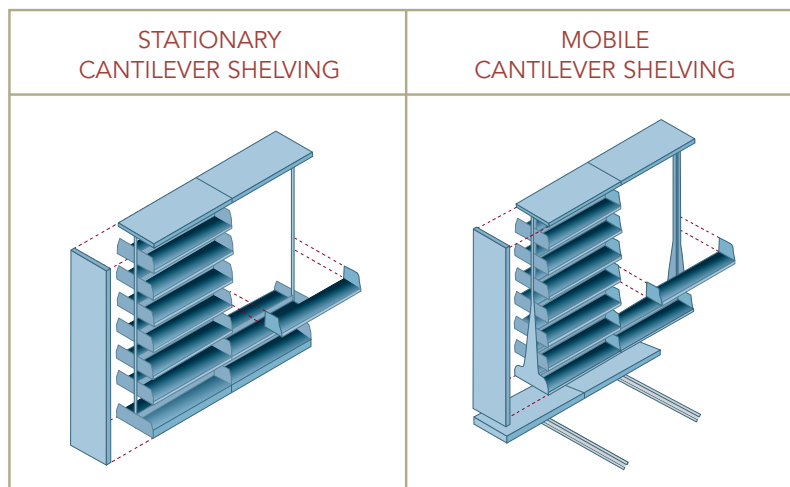

Shear Tabs Exclusive interlocking shear tabs securely join the base support to the frame for **maximum stability**, providing a more secure mount than conventional "wrap around" design.

Due to their rugged strength and pleasing aesthetic design, Spacesaver Cantilever Shelving and Display Systems are ideal for academic, corporate, public and legal libraries, as well as many general office applications.

- [Unlimited Shelving Options](#) Designed to adapt to both stationary and mobile storage applications, Spacesaver Cantilever Shelving (also known as Bookstack) offers you a comprehensive range of options and storage accessories to meet your specific needs and accommodate a wide array of media formats.
- [Heavy-Duty Shelving Construction](#) Spacesaver Cantilever Shelving Systems are engineered for stability, strength and rugged functionality. Their sturdy, heavy-gauge steel, welded-frame construction meets or exceeds American Library Association standards for structural integrity.
- [Anti-Tip Protection](#) Our Cantilever Shelving Systems can be equipped with overhead tie devices engineered for mobile or stationary applications or floor anchored to help comply with seismic requirements, providing an extra measure of system stability and safety – even in areas prone to earthquakes.
- [Ability To Reconfigure/Expand System](#) Easily assembled, disassembled and reassembled, Spacesaver Cantilever Shelving Systems are designed to conveniently reconfigure, relocate or expand as your storage needs change.
- [Wide Array Of Design Options](#) Your design options are virtually unlimited. Spacesaver Cantilever Shelving Systems are available in an imaginative range of colors, as well as end panel materials and finishes to complement and match any décor.
- [Durable Paint Finishes](#) Spacesaver's powder-coat paint finishes are extremely durable, meeting or exceeding the stringent scuff, scratch and chip requirements of the American Library Association.

SPACESAVER CANTILEVER SHELVING SYSTEMS

Specialty Shelves & Accessories

Zig-Zag Display Backstop For merchandising a variety of audio-visual and paperback media.

Pull-Out Reference Shelf For convenience in referencing shelved materials. 50 lb. (23 kg) load capacity.

Multimedia Shelf Each shelf will hold approximately 26 VHS tapes or 80 CDs. Can also be used to store paperback media.

Two-Tier Sloped VHS & CD Shelf Each 36" (914 mm) shelf holds approximately 56 VHS tapes (28 per tier) or 168 CDs (84 per tier).

Media Bag Rack Designed to hang large or small media bags from a 36" (914 mm) rod.

Flat Storage Shelf Includes end brackets – can be used for storage under a fixed display shelf.

Fixed Display Shelf 11" (279 mm) high – sloped display for merchandising of books, tapes and periodicals.

Periodical Display Shelf (Closed) Hinged with plexiglass cover. Sloped display is 14" (355 mm) high. Flat storage shelf is 12" (305 mm) deep.

Periodical Display Shelf (Open) Hinged and sloped display surface is 14" (355 mm) high. Flat storage shelf is 12" (305 mm) deep.

FOR A MORE COMPLETE INVENTORY OF ACCESSORIES AND OPTIONS, SEE SPACESAVER'S LIBRARY SHELVING CATALOG.

Hanging Wire Support Squeeze type, available in three sizes for five different shelf depths.

Snap-In Hanging Wire Support Available in four different sizes.

Integral Low-Back Dividers For low-back shelves, available in three sizes for five different shelf depths.

Steel Book Supports
Available as:
(A.) findable book supports,
(B.) flat book ends, or
(C.) clip-on book supports.

Multimedia Browsing Box Each 36" wide (914 mm) unit stores approximately 42 VHS tapes or 100 CDs.

Two-Tier Multimedia Browsing Box
Divider type – each 36" wide (914 mm) unit stores approximately 48 VHS or 110 CDs.

Two-Tier Audio Cassette Tape Shelf Each 36" (914 mm) shelf holds approximately 100 audio cassette tapes (50 per tier).

Six-Tier Newspaper Rack Efficiently displays up to six newspapers for easy identification and retrieval.

Sloped Adjustable Shelves With Integral Low-Back Shelf is sloped to aid viewing of displayed items. Unit is compatible with integral low-back dividers.

Aisle Identification Options
Optional range finders and card holders make locating and reshelving of materials fast and easy.

Canopy Light Illuminates display shelves and brightens dimly lit alcoves. Includes white prismatic diffuser.

Offset Centerstop Eliminates the need for two independent shelf backstops. Can increase shelf depth by 1" (25 mm).
