EUROPEAN COLLECTION

Quality from the market leader.

Club Resource Group's European design solutions are skillfully made to meet the exacting requirements of our clients by providing flexibility and versatility for the architect and interior designer, practicality and serviceability for the facility owner, with security and good looks for the user.

Club Resource Group proudly partners with C+P, one of Europe's leading furniture manufacturers. The C+P Company belongs to the Christmann and Pfeifer Group, which was set up in 1925 and is represented worldwide. C+P is the German market leader for lockers and furniture made of steel. Thanks to continuous innovation, constant investment and products geared to market requirements, C+P stands for quality and competence.

No other material has as many positive properties as steel. At C+P, we exploit every one of those properties and use steel whenever design, stability and long-term value are required.

The material of your choice - Steel!

Steel is a proven material and 100% recyclable. C+P steel furniture therefore provides an ecologically viable product, not to mention the cost savings for waste disposal.

Our Philosophy: Furniture for People...

Our motto "Furniture for People" stands for the principal approach to our business, our products and our service. Two basic statements make that point most clearly:

1. We believe it is our mission to make people's work easier. For us, making work easier involves the following aspects:
 - Ergonomic furniture that encourages well-being.
 - Intelligent applications that promote a logical work flow.
 - Excellent design that creates a pleasant atmosphere.
 - Cooperative partnerships that are simply fun.

2. For us, "Furniture for People" and "Furniture made of steel" are synonymous. The versatility of this material allows us to best achieve our goal of making people's work easier:
 - Furniture that stands out in the market.
 - Design solutions that are only possible with steel.
 - "Color and Space" are virtually unrivalled.

S 5000
Resisto

The "vandal-proof" box locker.

The C+P S 5000 Resisto series has been created to prevent excessive abuse. The convex form of the special doors made of 1.5mm thick steel results in excellent door stability. That is why they are absolutely sturdy and "vandal-proof"

Through our extensive know-how, our customers can rely on optimum solutions. Annually, we manufacture over 300,000 compartments in many product series as well as special models for every application!

Lots of storage space for the most varied of applications.

S 3000
Evolò

The evolution of a classic!

The S3000 Evolo provides that premium look with practical technologies. Evolo meets the requirements for an innovative exchangeable front concept allowing the use of both steel and MDF decorative doors.

The Evolo Storage Box:

For use beneath the street/work clothing model (= two compartments per user). Can only be opened by the locker user.

Separate storage of street and work clothing, forced ventilation, special hygiene regulations, additional storage space... Evolo's standard range easily meets all of these requirements.

For discerning clients

Whether in a business lounge in an elegant fitness club or a changing area in a sophisticated wellness hotel: The Cambio Business-Line stands for exclusivity. The professional finish combines practical functionality and exquisite materials (e.g. selected genuine wood varnishes for the doors) with design perfection. An excellent statement for communicating that your guests only deserve the very best.

Cambio business lockers with elegant genuine wood lacquered doors leave optically and technically nothing to be desired.

Workflow

Perfect setting:
The height adjustment of the Workdesk works quickly and easily on the T-frame and on the rocker docked on the Worklift.

Time is money, think on your feet.

Sitting and standing. Guiding movement. Keeping healthy. Acting and communicating flexibly. Satisfying changing requirements. Supporting the flow of your work – from a fully flexible team office to a representative individual workstation. Workflow from C+P is all this – and more.

In Workflow, presentation and functionality go hand in hand. With the desk we have thought of everything – from the sit/stand philosophy through to the cable management. The elegant sideboard solutions complete the picture. Anyone working here will convey a sense of calm serenity and self-confidence: this is where the real decisions are made – starting with the furniture.

Sit. Stand. Move.
